This paper provides the Governance Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Governance Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications. Click on the Grant Thornton logo to be directed to the website www.grant-thornton.co.uk.

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at 16 January 2018

Financial Statements Audit

We have started planning for the 2017/18 financial statements audit and will issue a detailed audit plan, setting out our proposed approach to the audit of the Council's 2017/18 financial statements.

We are due to commence our interim audit in February 2018. Our interim fieldwork visit will include:

- Updated review of the Council's control environment
- Updated understanding of financial systems
- Review of Internal Audit reports on core financial systems
- Early work on emerging accounting issues
- Early substantive testing

We will report any findings from the interim audit to you in our Progress Report at the March Governance Committee.

The statutory deadline for the issue of the 2017/18 opinion is brought forward by two months to 31 July 2018. We discuss our plan and timetable with officers.

The final accounts audit is due to begin on 1 June with findings reported to you in the Audit Findings Report by the earlier deadline of July 2018.

Value for Money

The scope of our work is set out in the guidance issued by the National Audit Office. The Code requires auditors to satisfy themselves that; "the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources".

The guidance confirmed the overall criterion as: "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people".

The three sub criteria for assessment to be able to give a conclusion overall are:

- Informed decision making
- Sustainable resource deployment
- Working with partners and other third parties

We will make our initial risk assessment to determine our approach in January 2018 and report this to you in our Progress Report at the March Governance Committee

We will report our work in the Audit Findings Report and give our Value For Money Conclusion by the deadline in July 2018.

Progress at 16 January 2018

Other areas

Certification of claims and returns

We are required to certify the Council's annual Housing Benefit Subsidy claim in accordance with procedures agreed with the Department for Work and Pensions. This certification work for the 2017/18 claim will be concluded by November 2018.

The results of the certification work are reported to you in our certification letter.

Meetings

We are meeting Finance Officers on a monthly basis to discuss emerging developments and to ensure the audit process is smooth and effective. We also meet regularly with your Chief Executive to discuss the Council's strategic priorities and plans.

Events

We provide a range of workshops, along with network events for members and publications to support the Council. Our next events are:

- Chief Accountants workshops are taking place during January and February. In the north-west the dates are 23 January in Manchester, 25 January in Liverpool and 15 February in Preston
- Income Generation event taking place in our Manchester office on 8 February, which will look at:
 - New innovative approaches adopted by commercial councils
 - Market trends in commercial innovation
 - Council responsibilities to adhere to new regulations

Further details of the publications that may be of interest to the Council are set out in our Sector Update section of this report.

Audit Deliverables

2017/18 Deliverables	Planned Date	Status
Fee Letter Confirming audit fee for 2017/18.	April 2017	Complete
Accounts Audit Plan We are required to issue a detailed accounts audit plan to the Governance Committee setting out our proposed approach in order to give an opinion on the Council's 2017-18 financial statements.	February 2018	Not yet due
Interim Audit Findings We will report to you the findings from our interim audit and our initial value for money risk assessment within our Progress Report.	March 2018	Not yet due
Audit Findings Report The Audit Findings Report will be reported to the July Governance Committee.	July 2018	Not yet due
Auditors Report This is the opinion on your financial statement, annual governance statement and value for money conclusion.	July 2018	Not yet due
Annual Audit Letter This letter communicates the key issues arising from our work.	August 2018	Not yet due
Annual Certification Letter This letter reports any matters arising from our certification work carried out under the PSAA contract.	December 2018	Not yet due

Meeting the deadlines

The Governance Committee requested an update on how we plan to meet the audit deadline of 31 July 2018. We recognise that bringing forward the audit deadline by two months, and the deadline for the Council to produce its accounts by one month, does pose a challenge. However by working closely together over the next few months, with regular liaison meetings and addressing issues as they arise, we fully expect that the challenges will be met.

In the following two columns we set out some of the key steps we are taking, with the help of the Council's finance team, to ensure that the audit deadline is met. We are very much reliant on the Council's officers producing a full set of financial statements and supporting notes by 31 May, along with a clear set of working papers. With the expectation that this will be achieved we have plans in place to ensure our deadline is met.

What we have done, or plan to do:

- Arranged monthly meetings with the finance team to ensure there are 'no surprises' and to discuss issues as they arise prior to the accounts production and therefore our audit
- Booked quarterly meetings with internal audit to ensure that we make the most of the good working relationship
- Complete the VfM Conclusion work by mid-April 2018, with the initial planning already underway
- Complete some early testing of transactions and balances. We will work with the Finance Team to ensure we complete any early work on the most appropriate areas
- Earlier completion of interim work, to ensure that the finance team maximise their time on closedown

- Agree a tailored list of required working papers well in advance of the year-end
- Hold weekly meetings during the audit to discuss outstanding queries and jointly monitor progress
- Meet with members of the governance committee to discuss relevant issues
- Set out at the beginning of the final accounts audit who will be completing the audit work and when that testing will be completed by
- Agree a response timeframe, to allow prompt responses to our queries

By such close working and the professional approach by both the Council's officers and the Audit team, we are confident that the audit deadline will be met.

Sector Update

Local government finances are at a tipping point. Councils are tackling a continuing drive to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider NHS and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with Governance Committee members, as well as any accounting and regulatory updates.

Local
government

Through a local lens: SOLACE summit 2017

The Industrial Strategy matters to places but places also matter to the Industrial Strategy.

This was a strong message coming out of discussions at the recent SOLACE (Society of Local Authority Chief Executives) summit where we facilitated 100 local authority CEOs and senior leaders to consider how the Industrial Strategy could be brought to life at a local level.

For some time now we have engaged in an ongoing and inclusive dialogue with communities and business, local authority and third sector leaders from across the country, to share aspirations, ideas and insight focused on building a vibrant economy for the UK. These discussions have helped to form the basis of our Vibrant Economy 'Blueprint for the UK' and they will go on to inform our recommendations to Government around a place-based approach to the Industrial Strategy.

This year's summit provided us with an invaluable opportunity to take this dialogue further.

We focused on the integral role local government will have in delivering the Industrial Strategy. Delegates applied a local lens to the national growth agenda, encouraging them to consider what strategies and approaches were already working in their place; what they could be doing more of to support growth in their area, and how they could steer the Industrial Strategy agenda from a local level.

Using the appreciative inquiry technique, we discussed the following questions:

What role would leaders and local institutions be playing if they were delivering positive outcomes from the industrial strategy?

Looking ahead and considering our diverse local authority agendas, the industrial strategy and surrounding policy landscape what aspects might work well for everyone?

You can see and hear what delegates thought on our [website](#)

Combined Authorities: Signs of Success

In her foreword to ‘Building our Industrial Strategy’ the Prime Minister states that the initiative “will help to deliver a stronger economy and a fairer society – where wealth and opportunity are spread across every community in our United Kingdom, not just the most prosperous places in London and the South East.”

Combined Authorities (CAs) – the newest model for the governance of local public services – are central to this.

In response to this, Grant Thornton and Bond Dickinson have jointly commissioned a report which provides an insight into the establishment of each combined authority in the context of their specific challenges. It is still early days for most combined authorities – the political and administrative difficulties of adopting this model are not to be under-estimated - but early signs are emerging of their potential to innovate and drive success.

The report benchmarks combined authorities using key indicators of growth, housing, transport and skills amongst others. We have also used our Vibrant Economy Index, which goes beyond financial returns and takes into account the wellbeing of society, to compare city regions. We believe that these benchmarks can serve as a baseline for assessment of progress over time.

Key findings from the report:

- CAs must begin to reduce the institutional blurring with historic local government structures that has occurred with their formation. As greater clarity emerges over their roles, functions, and profiles of individual mayors, their perceived legitimacy will increase.
- CAs stand and fall on their ability to add value through targeted investment, strategic co-ordination, joined-up policy and the leveraging in of additional resources (particularly additional private sector funds).
- There is no single checklist or set of criteria for measuring the success of mayors and combined authorities, each city region must articulate its own challenges and show progress in tackling them.
- A balanced set of benchmarks encompassing both economic and social success will, however, serve as a useful stimulus for the debate around the impact of the combined authority model over time.

Consider:

Is your Authority considering how the combined authority model may evolve?

Commercial Healthcheck: commercial investments and governance

Our latest healthcheck report was launched at CIPFA's Income Generation Summit in November. It is part of our 'The Income Spectrum' series, giving leaders of local government and public services insights into why and how local authorities are changing their approach to commercialisation, some of the related governance and risk management issues, and the latest innovation trends with case studies ranging from Angus and Luton to Oldham and Stirling.

The research shows that councils need to do more than simply adhere to the drafted rules to ensure an approach to commercialisation that balances outcomes and risks. The report therefore also includes a healthcheck diagnostic tool designed to give local government leaders extra comfort and confidence that they are pursuing a suitably balanced approach

Governance of commercial commitments is key to building confidence in the path to financial sustainability. The CIPFA code is the sector's primary rule book for treasury management and is expected to place a stronger emphasis on how councils will balance security, liquidity and return.

Key findings from the report include:

- While property has tended to be the focus, it is just one of a number of areas of activity. In the past year, borrowing includes £4.8 billion on bonds and commercial paper, and investment includes £7 billion in inter-authority lending (Investment in property for councils is a growing trend – a third of councils have done so since 2010, spending more than £2.4 billion between them, but this is not the only major area of investment activity)
- More entrepreneurial councils are adopting innovative approaches such as place-based market offerings, working together locally to add social value and cross-boundary franchising
- For many councils, investing in commercial assets is key to developing anchor institutions that contribute to place – ranging from airports, business parks and forestry to GP surgeries and cinemas
- A 'beyond compliance' approach to governance of commercial activities is required by progressive councils wanting to do more with less

Challenge question:

Is your Authority considering the risks and governance issues of the commercialisation agenda?

Cost Assurance

Did you know....

40

Number of Public Sector engagements to date

£125m

Annual spend analysed

£3.55m

Rebate opportunities identified

£1.1m

Fee income identified

2.84%

Error rate – rebates versus spend volume

55%

Of Public Sector engagements are Local Government

Our Cost Assurance service line provides Local Authorities with an independent and retrospective audit of their legacy telecommunications and utilities costs incurred during the past 6 years (as per the Statute of Limitation).

We find that there are repeat errors contained within a Suppliers' invoice arrangements – errors that aren't necessarily picked up by the end client. This is due to the fact that they tend to be contained in suppliers' billing systems 'at source' and are much further down the supply chain which the user won't necessarily have visibility of.

We are supported by a comprehensive library of legacy supplier pricing that has been collated since 2011. Our one aim is to ensure that the client has only paid for the services used during the period by:

- ensuring that bills presented by Suppliers' are in line with their contracts and relevant pricing mechanisms
- ensuring the client receives the Supplier refunds where errors have been identified by us
- ensuring consequential savings are identified and implemented immediately for the client

Our Cost Assurance work is based on a contingent-fee model and is supported by PSAA Ltd. Each of our Local Authority engagements include a fee cap to ensure governance and regulatory standards are maintained.

In summary, we are able to bring much needed financial benefit to the sector as well as providing insight into errors that may be prone to repeat offence by suppliers long after our work is concluded.

Grant Thornton Challenge question:

Has your Authority considered the potential for an independent review of telecommunications and utility costs?

Setting up a successful social enterprise

Local government continues to innovate as it reacts to ongoing austerity. An important strand of this response has been the development of alternative delivery models, including local authority trading companies, joint ventures and social enterprises.

This report focuses on social enterprises in local government; those organisations that trade with a social purpose or carry out activities for community benefit rather than private advantage. Social enterprises come in a variety of shapes and sizes as they do not have a single legal structure or ownership rule and can adopt any corporate form as long as it has a social purpose.

If you are a local authority looking to transition a public service to a social enterprise model certain factors will be key to your success including: leadership, continuing the culture, branding, staff reward and secure income stream.

Download our guide to explore how to handle these factors to ensure success, the requirements for setting up a social enterprise; and how social enterprise can be ended.

The guide also showcases a number of compelling case studies from local authorities around England, featuring inspiring ideas from those social enterprises that have been a success; and lessons learned from those that have encountered challenges.

Key findings from the report:

- Austerity continues to be a key driver for change: social enterprises are a clear choice where there is an opportunity to enhance the culture of community involvement by transferring these services into a standalone entity at its centre
- The social enterprise model tends to lend itself more to community services such as libraries, heritage management and leisure, but not exclusively so
- Social enterprises can open up new routes of funding including the ability to be flexible on pricing and access to pro bono or subsidised advice
- Some local authorities have converted exiting models into social enterprises; for example where a greater focus on social outcomes has been identified

Setting up a
social enterprise

Grant Thornton Publication

Challenge question:

Is your local authority looking to transition a public service to a social enterprise model, and if so are you familiar with this report?

The Board: creating and protecting value

In all sectors, boards are increasingly coming under pressure from both the market and regulators to improve their effectiveness and accountability. This makes business sense given a strong governance culture in the boardroom produces better results, promotes good behaviour within the organisation and drives an organisation's purpose.

Grant Thornton's new report 'The Board: creating and protecting value' is a cross- sector review of board effectiveness, based on a survey of executives and non-executives from a range of organisations including charities, housing associations, universities, local government, private companies and publically listed companies.

It considers the challenges faced by boards, ways in which they can operate more effectively; and how to strike the right balance between value protection and value creation.

This report uses the DLMA analysis which categorises skills into four areas: Directorship, Leadership, Management and Assurance.

This powerful tool provides a framework with which to evaluate how well an organisation is performing in balance of skills and understanding of roles; and responsibilities between the executive and Board. It helps align risk (value protection) and opportunity (value creation) with overarching strategy and purpose.

Challenge question:

Can you use the key questions raised in the report to consider the effectiveness of your own governing body?

Code of Practice on Local Authority Accounting and IFRS 9 and IFRS 15

CIPFA/LASAAC has issued the Local Authority Accounting Code for 2017/18 which specifies the principles and practices of accounting required to prepare a Statement of Accounts.

The main changes to the Code include:

- amendments to section 2.2 for the Community Infrastructure Levy to clarify the treatment of revenue costs and any charges received before the commencement date
- amendment to section 3.1 to introduce key reporting principles for the Narrative Report
- updates to section 3.4 covering the presentation of financial statements to clarify the reporting requirements for accounting policies and going concern reporting
- changes to section 3.5 affecting the Housing Revenue Account, to reflect the Housing Revenue Account (Accounting Practices) Directions 2016 disclosure requirements for English authorities
- following the amendments in the Update to the 2016/17 Code, changes to sections 4.2 (Lease and Lease Type Arrangements), 4.3 (Service Concession Arrangements: Local Authority as Grantor), 7.4 (Financial Instruments – Disclosure and Presentation Requirements)
- amendments to section 6.5 relating to the Accounting and Reporting by Pension Funds, to require a new disclosure of investment management transaction costs and clarification on the approach to investment concentration disclosure.

Alongside the Code, CIPFA has also published Guidance Notes for Practitioners and a Disclosure Checklist for 2017/18 Accounts.

These publications may be obtained from CIPFA and are available [here](#).

CIPFA/LASAAC has issued a companion publication 'Forthcoming provisions for IFRS 9 Financial Instruments and IFRS 15 Revenue from Contracts with Customers in the Code of Practice on Local Authority Accounting in the United Kingdom 2018'.

Looking further ahead, this sets out the changes to the 2018/19 Code in respect of [IFRS 9 Financial Instruments](#) and [IFRS 15 Revenue from Contracts with Customers](#). It has been issued in advance of the 2018/19 Code to provide local authorities with time to prepare for the changes required under these new standards.

IFRS 9 replaces IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes a single classification approach for financial assets, a forward looking 'expected loss' model for impairment (rather than the 'incurred loss' model under IAS 39) and some fundamental changes to requirements around hedge accounting.

IFRS 15 establishes a new comprehensive framework for revenue recognition and replaces IAS 18 Revenue and IAS 11 Construction Contracts. IFRS 15 changes the basis for deciding whether revenue is recognised at a point in time or over a period of time and introduces five steps for revenue recognition.

It should be noted that the publication does not have the authority of the Code and early adoption of the two standards is not permitted by the 2017/18 Code.

An Early Guide for Local Authority Practitioners covering IFRS 9 Financial Instruments is to be published in December 2017.

CIPFA Publication

Challenge question:

Is the Finance Team aware of the changes affecting the preparation of the financial statements for 2017/18 and the forthcoming changes to financial instruments and revenue recognition.

Overview of General Data Protection Regulation (GDPR)

What is it?

GDPR is the most significant regulatory data protection development in 20 years. It introduces new rights for individuals and new obligations for public and private sector organisations.

What's next?

Many public sector organisations have already developed strategic plans to implement the GDPR, which require policy, operational, governance and technology changes to ensure compliance by 25th May 2018.

How will this affect you?

- ✓ All organisations that process personal data will be affected by the GDPR.
- ✓ The definition of 'personal data' has been clarified to include any data that might reasonably be used to identify a living individual, either directly or indirectly. Various unique identifiers (including online cookies and IP addresses) will likely fall within the scope of personal data

What organisations need to do by May 2018

- ✓ Local government organisations need to be able to provide evidence of completion of their GDPR work to internal and external stakeholders, to internal audit and to regulators.
- ✓ New policies and procedures need to be fully signed off and operational.

Organisation Accountability

- Organisations must document their assurance procedures, and make them available to regulators
- Organisations need to designate a Data Protection Officer, who has expert knowledge of data protection law

Notifications and Rights

- Organisations must notify relevant incidents to regulators within 72 hours
- Organisations must explain to individuals what their rights over their personal information are and how it is being processed and protected

Claims and Fines

- Privacy regulators can impose penalties of up to €1 million on public sector organisations, for the most serious violations
- Individuals and representative organisations may be able to seek compensation for infringements of data protection rights

GDPR

Challenge question:

Can your authority effectively erase Personally Identifiable Data?

Have you appointed a Data Protection Officer?

How will your authority ensure citizens' data isn't duplicated across different information siloes without their knowledge?

CIPFA publications

CIPFA have published 'The guide to local government finance' 2017 edition. The guide seeks to provide information on current arrangements for local government finance and sets out the principles of sound financial management.

The guide covers a range of local government services. It examines the funding systems that support those services including council tax, business rates and the local government finance settlement. The guide covers both revenue and capital financing and has separate chapters on key areas and their specific intricacies including:

- capital finance
- budgeting and financial reporting
- treasury management
- auditing
- governance
- education
- housing
- police
- social care.

CIPFA have also published 'An introductory guide to local government finance' 2017 edition which is aimed at those requiring more of an introduction to local government finance for example, those new to the sector or non finance specialists.

CIPFA have updated their guidance on the key considerations in setting up and managing a pooled budget in the publication 'Pooled Budgets and the Better Care Fund: A Practical Guide for Local Authorities and Health Bodies' (2017 Edition)

Although pooled budgets have operated widely across health and social care for a long time, they were brought into prominence by the Better Care Fund, introduced in 2015–16.

The aim of CIPFA's guidance is to define the basic principles of financial management, governance and accountability that partners in budget pooling arrangements or, indeed, other forms of partnership working, should follow, and to consider the relevant accounting issues.

The guide provides practical tools such as a checklist of matters to consider, an example of how to decide which agency should lead the arrangement, a model scheme of delegation to boards. The guide considers the background to budget pooling, including the purpose of pooling, the basics of partnership arrangements, and some other options available to health and social care organisations pursuing similar objectives. It goes on to consider specific issues arising from pooling: managing a pooled budget, corporate governance, financial management, audit and assurance, and VAT. These matters then feed into an appendix on accounting issues.

CIPFA Publication

Challenge question:

Are these publications of use to you?

Local Authority 2016/17 Revenue Expenditure and Financing

DCLG has produced a summary of Local Authorities' 2016/17 final outturn for revenue spending and financing. It notes that local government expenditure accounts for almost a quarter of all government spending and the majority of this is through local authority revenue expenditure.

The summary is compiled from the Revenue Outturn (RO) returns submitted by all local authorities in England. Coverage is not limited to local councils in England and includes other authority types such as Police and Crime Commissioners and Fire authorities.

The headline messages include:

- Local authority revenue expenditure totalled £93.6 billion for all local authorities in England in 2016-17. This was 1% lower than £94.5 billion spent over 2015-16.
- Expenditure on Adult Social Care increased to £14.9 billion in 2016-17. This was £0.5 billion (3.6%) higher than in 2015-16. The 2016-17 financial year was the first year where local authorities were able to raise additional funding for Adult Social Care through the council tax precept.
- The largest decrease in local authority expenditure was on Education services. This was £0.75 billion (2.2%) lower in 2016-17 than in 2015-16. The majority of this decrease is due to local authority funded schools converting to academies.
- Local authorities are financing more of their expenditure from locally retained income. 40.4% of revenue expenditure was funded through council tax and retained business rates and 57.5% from central government grants. The remaining 2.1% was funded by reserves and collection fund surpluses. These percentages were 38.7%, 60.4% and 0.9% respectively in 2015-16.
- Local authorities used £1.5 billion (6.2%) of the £24.6 billion reserves balance held at the start of the 2016-17.
- Local authorities' use of reserves was £1.1 billion higher in 2016-17 than in 2015-16. Due to changes in their capital programme, £0.4 billion of this increase is due to the Greater London Authority.

The full report is available [here](#).
