

2) They have done my services and repairs since the first day my husband and I bought it.

This time I had to have a few jobs done for my taxi test and N.O.T.

And as you can see they only did the taxi test and N.O.T on the 5.8.14.

My last job was on the 16.7.14 because I came down with a virus.

The three lots of medication I was given I got an allergic reaction to them.

Dear Sir / Madam  
I am finally submitting my vehicle licence renewal papers.

I know its late but I only got it back today.

I had been asking the garage for over three weeks to pick it up.

I use this garage because they pick it up and bring it back.

3) On the 23.7.14  
I should have gone into Chorley  
Hospital for a operation on  
my elbow.

But it had to  
be cancelled I did, it being  
the paper work to you yesterday  
because I had to go to  
Chorley Hospital.

If you want  
approve of what I have stated  
I can give it.

If my husband  
had been alive he would have  
taken care of things.

But sadly I  
am on my own now.

4) I had  
I have three  
attempt to bring my paper  
work to you but I just start  
vomiting so that's why I have  
put them in the post.

But how do you  
I will see the committee in  
January I cannot afford to retire  
or go into debt to buy another  
vehicle you have to spend  
at least eight thousand to get  
a safe and reliable vehicle.

Weber's have still  
got a bug I don't know I see the  
Doctor tomorrow.

Yours faithfully  
Mrs Margie Horrocks
