APPLICATION TO LICENCE A CHRYSLER LIMOUSINE	REGENERATION, LEISURE AND HEALTHY COMMUNITIES	Wajed Iqbal	6

SUMMARY AND LINK TO CORPORATE PRIORITIES

A report on an application to licence a Silver Chrysler stretched limousine registration EU09 BWN which does not comply with the Council's published age policy.

RECOMMENDATIONS

The Committee is requested to determine whether it wishes to depart from its policy and grant a Private Hire vehicle licence.

DETAILS AND REASONING

Mr Philip John Hayes of 3 Westwood Road, Leyland PR25 3NS wishes to upgrade his fleet of stretched limousines and has applied to licence a Black Chrysler which was first registered in the United Kingdom on 1st June 2009 and which is approximately 5 years and 10 months old.

In accordance with the Council's Policy on vehicle age limits (Appendix 1) it is too old to be licensed as a Private Hire Vehicle, but in accordance with subsection b) of this Policy, Mr Hayes requests the vehicle be given due consideration.

Mr Hayes has been asked to make the vehicle available for the Committee's inspection to ensure that it is given full consideration in determining its suitability as a licensed vehicle.

Prior to the introduction of a Council Policy on vehicle age limits, the licensed vehicle fleet was by and large unregulated, apart from the requirement for a roadworthiness test every six months. However, the Council reviewed vehicle conditions following increasing concerns expressed by members of the public and councillors regarding the standard and quality of the vehicles licensed by it. As a result, to improve vehicle standards, the council decided that it was appropriate to introduce a limit on the age of vehicles it would licence.

The introduction of an age limit has resulted in newer vehicles being used and these licensed vehicles are fitted with more recent safety features (e.g. anti-lock brakes, side impact bars, air bags etc.). Vehicle engine management systems are more efficient and environmentally conscious. The service given to passengers has also, therefore, improved.

The Council in looking at applications to licence older vehicles, would need to use flexibility so that the authority did not fetter its discretion or act unreasonably. However, the Council has not departed from this policy apart from in exceptional circumstances, or when licensing 'vintage' or 'classic' vehicles.

Members will be aware that similar vehicles of similar ages are currently licensed on the fleet, although stretched limousines have various factors differing them from 'standard' Private Hire vehicles, e.g. seating configuration, numbers of seatbelts, privacy glass.

Documents in relation to the vehicle are attached at Appendix 2 (Insurance Certificate and MOT). The vehicle will have to pass the Council's Roadworthiness test.

Mr Hayes would also like to request that he be exempt from displaying the licence plate on the rear exterior of the vehicle. He will display in the rear boot. He will however display the front windscreen licence plate information.

For information, Mr Hayes holds Private Hire Driver's Licence PHD149, Private Hire Operator's Licence PHO012 (Sophisticars) and three other Private Hire Vehicle Licences (PHV012, PHV017, PHV100 & PHV190) (1 x Chrysler Limo vehicle and 3 x Lincoln Towncars) with the Council.

Members may wish to take into consideration the condition and safety features of the vehicle, whether any specific contracts of work are dependent upon the use of the vehicle and whether any other exceptional factors contribute to the licensing of the vehicle.

Committee will please consider the vehicle's suitability in light of the above.

WIDER IMPLICATIONS

In the preparation of this report, consideration has been given to the impact of its proposals in all the areas shown below. A risk assessment has also been carried out. The table shows the implications in respect of each of these.
