09 February 2015

Dear Ladies and Gentlemen of the Committee

Myself and my wife would like to book an appointment with your good selves at your earliest convenience, to put forward a proposal to extend the life of our two Private Hire, luxury appointed Vehicles for a further 2 years from September 2015.

The two cars epitomise Mr Holland's business. The vehicles command a presence because of their outstanding appearances and are well known in the local vicinity. Our many loyal and long-standing (many of senior years) customers wax lyrical of their splendour and comfort. Also, not blowing our own trumpet, they are enamoured by the superb, smooth ride brought about by the excellence of the two drivers (myself and my wife Dorothy).

We have several businessmen who avail themselves of our services and we also transfer foreign students to and from the airport. In the case of young students coming into our country for the first time, initial impressions are of the utmost importance. This is why we maintain high standards internally and externally of our vehicles as well as mechanically, and feel it would be a shame and a dreadful hardship to ourselves should you deem that we can no longer use the vehicles in the capacity of private hire.

Yours most sincerely

Mr A and Mrs D M Holland
