Our application seeks to allow the sale of alcohol 'on' the premises. This is to allow the sale of drinks for consumption in the café area. This is simply to augment the existing menu and beverage offer. The type of product available will be half bottles of wine and bottled lagers & beers. No draft products or spirits will be sold.

The application also includes a request to provide live and recorded music. From the outset our client wishes to confirm this is to be ancillary to their operation as a supermarket and will be provided on an occasional basis for promotions and special events. Examples of such promotions are wine and cheese tasting events where Italian or Spanish music may be played to promote the foods/drinks available and carol singers at Christmas etc.

Live and recorded music will not, for example, include loud 'rock' or 'drum and bass music and in any event will not be played at such volumes that may be a nuisance or annoyance to either local residents or shoppers in store. The premises will not changing from its current supermarket operation to that of an entertainment venue such as a club or bar.

You will be aware that should our clients wish to change the use of the store to an entertainment venue, then an application for a new Premises Licence would be required to approve the substantial changes to the premises. In addition to this an application for a change in planning from A1 to A4 use would be required.
