Business Improvement Plan & Budget 2012-13	N/A	S Guinness & G Barclay	

SUMMARY AND LINK TO CORPORATE PRIORITIES

This report summarises and explains the content of the attached Business Improvement Plan (BIP) and Budget for the Finance and Assurance Shared Services Partnership which will cover the fourth complete financial year of its operation.

The BIP and Budget were originally presented to the Joint Committee at the January meeting, whereupon the members recommended to the Executives of both host authorities the adoption of the required resources to deliver the Shared Services Partnership in 2012/13. This has subsequently occurred as part of the overall budget approval processes.

Given that there are several changes to the Joint Committee's membership from 2012/13 we have re-presented the original paper for the benefit of new members. This opportunity has also been taken to provide include additional information in relation to the efficiencies and financial economies which the Partnership has secured since its formation in January 2009.

The Committee will receive regular update reports during the course of the year highlighting the actions taken to deliver service improvements and performance targets specified in the BIP, including budget updates, culminating in a detailed Annual Report at the year-end.

The Partnership is seen as a key function by both Chorley and South Ribble Councils and continues to make a direct and extensive contribution to the following strategic objectives:

“Ensuring that **Chorley** Council is a consistently top performing organisation”.

“**South Ribble** is an efficient, effective and exceptional council”

RECOMMENDATION

That the Joint Committee notes the re-presented Business Improvement Plan 2012/13 incorporating additional information on the efficiencies and economies achieved by the Partnership to date.

DETAILS AND REASONING

Performance Management

The Committee has previously received and approved the formal Partnership Agreement incorporating a Service Level Agreement which sets out the key outputs required of the Partnership and the individual performance measures against which it will be judged.

The main aim of the attached BIP is to translate these outputs and measures into specific projects and targets which need to be achieved during 2012/13. These are shown in the tables at **Appendices 2 and 3** of the BIP.

Other Purposes

As well as underpinning performance management the BIP fulfils the following purposes:-

- Highlighting the **main achievements in 2011/12** at the Partnership level and within Shared Financial & Shared Assurance Services individually;
- A **Risk Register (Appendix 1)** for identifying and acting upon the key risks and opportunities facing the Partnership in 2012/13;
- A **Financial Plan (Budget)** to facilitate the effective financial management of the Partnership;
- A **Contracts Register (Appendix 4)** to acknowledge that many of the Partnership's main services are delivered through or in association with other organisations;
- An outline of the main areas of proposed **procurement activity** during 2012/13;
- A summary of the **financial efficiencies** which have already been secured by the Partnership in the first **3 full financial years** of its operation;
- An outline of the main **cashable savings** and **non-cashable efficiencies** which are anticipated in year 4;
- An outline of the **business opportunities** which it is intended to exploit in 2012/13.

WIDER IMPLICATIONS

In the preparation of this report, consideration has been given to the impact of the following:

FINANCIAL	The Partnership budget incorporates significant savings for 2012/13, the basis of which have been reported separately to members.		
LEGAL	The Shared Services Joint Committee, established under Section 101 of the Local Government Act 1972, provides the overall governance for this with its terms being set out in an Administrative Collaborative Agreement which has been signed by both Councils. Sound business planning and performance management arrangements are required to enable the Shared Services Joint Committee to effectively fulfil its obligations.		
RISK	A dedicated Risk Register has been produced in order to identify and mitigate the risks associated with the ongoing development of the Partnership and the latest version is incorporated within the Business Improvement Plan appended to this report.

KEY ACHIEVEMENTS IN 2011/12

2011/12 represented a challenging year as the Partnership continued to embed combined and new ways of working whilst seeking to improve the delivery of its services.

The first half of the year was again a particularly successful period during which three separate Statements of Account were prepared for the two Councils plus the Joint Committee and each received unqualified audit opinions.

The 2010/11 Financial Statements were also prepared in compliance with newly introduced International Financial Reporting Standards (IFRS).

We were also heavily involved in training new members following the May elections, particularly at South Ribble where full elections were undertaken

Against a background of a deteriorating financial climate nationally we have also achieved significant savings during the year and have also identified further efficiency savings from 2012/13 onwards.

At this meeting of the Joint Committee members are informed that the vast majority of the service development projects for the year had been completed or are on track and almost all the key performance targets are on course to be achieved.

A summary of the main service level successes in 2011/12 are as follows:-

Shared Assurance Services

Supporting the Annual Governance Statement reviews for SRBC, CBC and the Joint Committee

Undertaking intranet based fraud awareness campaigns at each Council

Retaining the ISO 9001 quality standard for Internal Audit

Updating and testing the Emergency and Business Continuity Plans for both host authorities

Implementing of the National Resilience Extranet (NRE) for civil contingencies at both host authorities

Facilitating a civil emergency rest centre test exercise at Chorley in conjunction with other agencies

Joint tendering for insurance services delivering significant savings & ongoing administrative efficiencies at both host authorities

Shared Financial Services

Closure of Accounts and production of both Council's statutory Statement of Accounts to most earliest timescales and in accordance with the significant change with regard to the implementation of International Financial Reporting Standards (IFRS). An achievement recognised in the external auditors report.

Successful implementation of the new Financial Management Information System and significant progress made with developing its functionality and reporting tool.

This has led to an acknowledgement that this is a leading development in delivering FMIS services and an invitation to present a case study to the CIVICA Annual Conference in 2012.

Delivery of a number of very well received Member training sessions on Public Finance, IFRS Statement of Accounts and Treasury Management.

Further embedding and development of the regional e-procurement portal within the Procurement Team resulting

Efficiency savings achieved for both Councils through procurement activity

NEW RISKS & OPPORTUNITIES FOR 2012/13

At the outset of the shared services partnership, the risks associated with its successful implementation were recorded in a risk register together with the proposed actions to mitigate them.

Although the majority of the original risk issues have now been mitigated, the updated risk register at **Appendix 1** contains a list of the original risks where action is still in progress to address them together with some new and emerging risks and opportunities as the Partnership enters its third full year of operation.

The key risks and opportunities facing the Partnership at this stage of its development are considered to be:

- Delivering sustainable services in the light of public sector funding cuts, including seeking out viable opportunities to grow the services;
- Further developing managers and staff and planning for succession;
- Further developing the management accounting function at both host authorities to increase added value, including developing the Financial Management Information System (FMIS) in order to maximise the potential benefits;

PARTNERSHIP BUDGET 2012/13

With regard to the current year a financial summary of the main budget areas is as follows:-

Budget	2011/12 £000	2012/13 £000	Variation £000	Explanation
Employees				
Salaries Costs	1.412	1.422	0.010	Increase in salary increments and employers pension contribution rates
Car leasing	0.027	0.027	-	
Employee Related Insurance	0.010	0.010	-	
Lancashire County Council Audit Budget	0.010	0.010	-	
Transport	0.014	0.014	-	
Financial Management Information System	-	0.095	0.095	Transfer of the new FMIS budget to be managed within the partnership
Supplies and Services	0.040	0.040	-	
SUB TOTAL	1.513	1.618	0.105	
Budget Saving Target	-	(0.100)	(0.100)	New budget savings target for 2012/13
TOTAL BUDGET	1.513	1.518	0.005	

The main variations to the budget for 2012/13 are due to the following:-

- Salary Increments
- Increase in employer's pension contribution rates for Chorley and South Ribble
- Transfer of shared FMIS contract costs into Shared Financial Services

KEY SERVICE DEVELOPMENTS & TARGETS 2012/13

Service Level Agreement

The Shared Services Joint Committee has approved a Service Level Agreement (SLA) which sets out the key performance outputs and measures for the Partnership.

These outputs and measures have been translated into specific service developments and targets which need to be achieved during 2012/13.

Service Developments 2012/13

A table showing the annual objectives and key projects for 2012/13 is shown at **Appendix 2**. Several of these are aimed at addressing the strategic risks and opportunities impacting on the Partnership as identified in the revised Risk Register. It should also be noted that the budget review processes and ongoing restructuring in both Shared Assurance Services and Shared Financial Services have led to a greater focus on core functions and activities and this is reflected in the project programme proposed for 2012/13.

Performance Information

In order to secure continuous improvement in the way that the Partnership delivers its core services it is essential that appropriate performance measures are identified against which challenging targets can be set and regularly monitored. The table at **Appendix 3** includes a performance indicator set that is based on the work of the National Audit Office (Value for Money in Public Sector Corporate Services – A Joint Project by the UK Public Sector Audit Agencies (2007)). The indicator set was also put together following service user and staff consultation and draws upon previous measures used at South Ribble and Chorley.

Performance Reporting

Using standard templates, regular reports on progress against the required outputs, service developments and performance targets will be presented to the Chief Executives, Joint Committee and other relevant committees at each council at the appropriate intervals.

Data Quality

It is also important to stress that the data quality and collection standards appertaining to each Council will be rigorously applied.

CONTRACTS & PARTNERSHIPS

A list of the contractual and partnering arrangements involving Shared Financial and Assurance Services as at January 2012 is contained in the table at **Appendix 4**.

DELIVERING EFFICIENCIES

Cashable Savings 2008/09 – 2012/13

Since the partnership was launched at the beginning of January 2009 significant budget efficiencies have been secured by working in partnership, making the best of new technology and proactively reviewing the ways in which we work. To date, nearly £0.500m worth of budget efficiencies have been achieved on a recurring basis from the original budget position which was less than £2.0m. The current Business Improvement Plan also sets out projects that aim to ensure that the partnership leads the field with regard to streamlining processes and achieving efficiencies.

Year	Budget Movement		Annual Budget
	Budget Adjustments	£000	£000
2008/09 (Jan to Mar)	<i>Budget Efficiencies Partnership Launch Jan 2009</i>	<i>(0.102)</i>	part year

2010/11	Net budget efficiency target/volumetric/ committed growth	(0.002)	1.734
2011/12	One off budget savings re-instated	0.050	1.784
	Net budget volumetric/ committed growth	0.020	1.804
	<i>Budget Efficiencies - recurring</i>	<i>(0.291)</i>	1.513
	Transfer FMIS to SFS	0.095	1.608
2012/13	Net budget volumetric/ committed growth	0.010	1.618
	<i>Budget Efficiencies - recurring</i>	<i>(0.100)</i>	1.518
	TOTAL RECURRING BUDGET EFFICIENCIES TO DATE	(0.493)	

Cashable Savings 2012/13

The partnership is continuing to work towards assisting both Councils make significant cashable savings in order to close budgetary funding gaps resulting from the Government's Comprehensive Spending Review. The table below provides an estimate of the cashable savings that are anticipated in 2012/13:

SAVINGS OPPORTUNITIES	ESTIMATED VALUE (£000)
Provision of Shared Financial Services	100
Procurement Joint Procurement Strategy	500 (cumulative per Council over 5 year strategy period)

Further opportunities may arise as a result of the service's activities within the Business Improvement Plan to realise further budgetary savings for both councils, for example, the outcome of the project to tender for banking services. These will be reported within the services Performance Report during the forthcoming year.

Non-Cashable Efficiencies 2012/13

In addition to the above anticipated cashable savings there is ongoing activity within both Shared Assurance Services and Shared Financial Services to streamline business systems and processes in order to deliver further efficiencies for both councils. For example the recent joint tender exercise for insurance resulted in the appointment of fewer insurance providers which are also now common to both host authorities. This will simplify claims handling and overall communications between the two host authorities and our insurance partners.

BUSINESS OPPORTUNITIES

Shared Assurance Services

The earlier feasibility study into creating a larger shared Internal Audit service involving other district authorities in Lancashire is now being actively considered as an option. Internal Audit has also been approached to undertake a small amount of work on behalf of St. Catherine's Hospice in the final quarter of 2011/12 with the possibility of further work in 2012/13. This will provide a contribution towards costs without materially impacting on the audit resource available to the two host authorities.

Shared Financial Services

It has been the intention of the service to seek to expand the new and innovative way of delivering financial management systems to more than one organisation within one Financial Management Information System to a third, external organisation. This position has now evolved into the service being involved in a project to deliver FMIS services on a larger scale across the county. At present this is a current project so the outcome cannot be pre-empted at this stage. The Joint Committee will, however, be updated on this matter as part of the partnership's performance report during the forthcoming year. This has the potential to raise the profile and resources requirement of the Partnership significantly but this scenario will not provide additional income as this type of service agreement, although recover any additional costs, would not be based on a profit making basis.

APPENDIX 3 - PERFORMANCE INFORMATION 2012/13

The table below includes a performance indicator set that has been put together:

- following service user and staff consultation;
- drawing upon existing measures at South Ribble and Chorley; and,
- based on the work of the National Audit Office (Value For Money in Public Sector Corporate Services – A Joint Project by the UK Public Sector Audit Agencies (2007)).

The NAO model develops an amended scorecard approach that, in addition to an efficiency dimension, defines three separate facets of effectiveness that can be measured:

- **Impact**, in terms of how the output from each of the services contributes to or influences corporate performance as a whole;
- **Satisfaction** of users and senior managers;
- **Modernisation**, in terms of the extent to which management practices have been adopted that are innovative and forward thinking.

The following table identifies each type of measure being used by the following references:

- E = Efficiency
- EI = Effectiveness Impact
- ES = Effectiveness Satisfaction
- EM = Effectiveness Modernisation

Note also that the data quality and collection standards appertaining to each Council will be rigorously applied.
