Decision to be made by The Licensing Panel

27. The Panel are asked to consider the seriousness of the issues disclosed and determine this application by taking account of Its own policy and Secretary of State Guidance (section 182 of the Licensing Act 2003).

28. In Determining the review application under Section 52 of the Licensing Act 2003 the committee have the following options;

- make no changes to the premises licence
- to modify the conditions of the licence;
- exclude a licensable activity from the scope of the licence;
- remove the designated premises supervisor;
- suspend the licence for a period not exceeding three months;
- revoke the licence;

29. Numerous paragraphs of the Section 182 Guidance are worthy of mention;

11.19 - Where the licensing authority considers that action under its statutory powers is appropriate, it may take any of the following steps:

- *modify the conditions of the premises licence (which includes adding new conditions or any alteration or omission of an existing condition), for example, by reducing the hours of opening or by requiring door supervisors at particular times;*
- *exclude a licensable activity from the scope of the licence, for example, to exclude the performance of live music or playing of recorded music (where it is not within the incidental live and recorded music exemption)*
- *remove the designated premises supervisor, for example, because they consider that the problems are the result of poor management;*
- *suspend the licence for a period not exceeding three months;*
- *revoke the licence.*

11.20 - In deciding which of these powers to invoke, it is expected that licensing authorities should so far as possible seek to establish the cause or causes of the concerns that the representations identify. The remedial action taken should generally be directed at these causes and should always be no more than an appropriate and proportionate response to address the causes of concern that instigated the review.

11.23 - Licensing authorities should also note that modifications of conditions and exclusions of licensable activities may be imposed either permanently or for a temporary period of up to three months. Temporary changes or suspension of the licence for up to three months could impact on the business holding the licence financially and would only be expected to be pursued as an appropriate means of promoting the licensing objectives or preventing illegal working. So, for instance, a licence could be suspended for a weekend as a means of deterring the holder from allowing the problems that gave rise to the review to happen again. However, it will always be important that any detrimental financial impact that may result from a licensing authority's decision is appropriate and proportionate to the promotion of the licensing objectives and for the prevention of illegal working in licensed premises. But where premises are found to be trading irresponsibly, the licensing authority should not hesitate, where appropriate to do so, to take tough action to tackle the problems at the premises and, where other measures are deemed insufficient, to revoke the licence.

11.27 - There is certain criminal activity that may arise in connection with licensed premises which should be treated particularly seriously. These are the use of the licensed premises:

- *for the sale and distribution of drugs controlled under the Misuse of Drugs Act 1971 and the laundering of the proceeds of drugs crime;*
- *for the sale and distribution of illegal firearms;*
- *for the evasion of copyright in respect of pirated or unlicensed films and music, which does considerable damage to the industries affected;*
- *for the illegal purchase and consumption of alcohol by minors which impacts on the health, educational attainment, employment prospects and propensity for crime of young people;*
- *for prostitution or the sale of unlawful pornography;*
- *by organised groups of paedophiles to groom children;*
- *as the base for the organisation of criminal activity, particularly by gangs*
- *for the organisation of racist activity or the promotion of racist attacks;*
- *for employing a person who is disqualified from that work by reason of their immigration status*
- *in the UK;*
- *for unlawful gambling; and*
- *for the sale or storage of smuggled tobacco and alcohol.*

Comments of the Monitoring Officer

34. When considering what decision to make in respect of this review members need to take into account the provisions of the Licensing Act 2003, the council's own Licensing Policy and the statutory Section 182 guidance (quoted in the report). Members of course have received training on such issues but one of the council's solicitors will be present to advise accordingly.

35. Members must also give careful consideration to all representations made in this regard whether in support for the request of the review of the licence or any comments made by the licence holder or in support of their position.

36. If the Licensing Panel decide to take any action then they must ensure that it is appropriate and proportionate.

37. Officers from the council's Legal and Democratic teams will ensure that proper process and procedure is following at the hearing.
