126 South Ribble Annual Monitoring Report 2020/2021

The committee received a report of the Director of Planning and Development which sought approval of the draft 2020/2021 Monitoring Report for the 2015 South Ribble Local Plan, which all local authorities are required to publish on their website.

The report highlighted key achievements, such as

- A total of 414 housing completions
- Completion of 37 affordable dwellings
- Retention of Green Flag status for three parks in the borough

Members requested that the report be updated prior to publication to include information on the total number of units in each local centre, to provide further detail with regards to the number of vacant units.

There was also some confusion over whether the target for affordable housing was 30 dwellings or 30%. The Director of Planning and Development advised that this monitoring report related to the South Ribble Local Plan, which had a target of 30 affordable dwellings being completed per year.

It was acknowledged that the Central Lancashire Core Strategy requests that 30% of a development be affordable houses, where applicable, and that this discrepancy would be addressed in the new Local Plan which was currently under review.

It was requested that paragraph 2.5 of the appendix be rewritten to clarify this position and that the report be recirculated to members of the committee prior to publication.

Resolved: (Unanimously)

That

1. the draft Monitoring Report be approved for publication on the Council's website, subject to revisions requested at the meeting and
2. authority is delegated to the Director for Planning and Development to make minor text, layout and formatting changes prior to publication, as necessary.
