Appendix A - South Ribble Holiday and Food Programme 2022 - Highlights

‘As a Council, we know that lots of families are struggling, as the cost of living rises, and we know that COVID has hit many households financially as well as physically. Giving children the opportunity to try things they have never tried before, opening up our leisure centres for free access and bringing families together has given so many parents a boost; the feedback has been incredible.

Although the government funding which enabled HAF has been invaluable, I really believe that our South Ribble programme has gone above and beyond. We said from the beginning that no child would be turned away, and we remain committed to that. We not only fed children, but we encouraged them to take food home, and spare food was distributed in the community.

On behalf of South Ribble Council, we thank everyone who has stepped up and taken part. We value all of you, our trusted partners, and we hope that HAF brings our community together for the benefit of our young people.’

Cllr Mick Titherington, Deputy Leader and Cabinet Member for Health and Wellbeing
