33 Shared Building Control

Chris Sinnott, Chief Executive presented the confidential report which set out the proposals for a shared building control service.

On 24 July, the Shared Services Joint Committee agreed to commence a review into a shared building control service to help ensure resilience for both councils given the technical and specialist skills required in building control. The objectives of the review were set out in the report.

A pre-consultation period was carried out through workshops with the building control functions to gain feedback around the current challenges for the teams and opportunities for a shared service. This feedback had been incorporated into the report and the proposals. The Committee considered the proposals and the two options presented for the service structure.

Resolved (unanimously):

That the Shared Services Joint Committee considered the proposals and recommended the Shared Service Structure Option 1 for approval by Executive Member Decision as a basis for formal consultation.
