

REPORT TO	ON
Shared Services Joint Committee	14 th September 2017

Jan 2017

TITLE	AUTHORS
Business Improvement Plan & Budget 2017/18 (Updated)	G Barclay & S Guinness

1. PURPOSE OF THE REPORT

This report summarises and explains the content of the attached Business Improvement Plan (BIP) and Budget for the Finance and Assurance Shared Services Partnership which will cover the **ninth** complete financial year of its operation.

At the March meeting members were presented with an Interim BIP to June 2017 because Shared Financial Services (SFS) had experienced an exceptional year in 2016/17 with regard to staffing arrangements that had varied extensively since the 2016/17 BIP was approved. For that reason some of the projects had not been completed, therefore, the BIP was rolled forward for some SFS projects purely on a temporary basis whilst various service reviews were completed and roles and responsibilities within the service were finalised. Currently, the review of the service and the expansion of shared services is ongoing and therefore roles and responsibilities have not been finalised. The review into the service, however, will be finalised in the near future which will allow the BIP to be updated accordingly.

Some amendments were made in June at the last Joint Committee, these are as follows:-

- New Project to produce Members' Guide to Procurement
- Updated timetable for SRBC Budget Setting Process
- New Key Performance Indicators for Financial Training

Members are advised that following the service review, a further updated BIP for 2017/18 will be presented to Joint Committee for approval.

That said, a performance report is presented to Committee for information and will receive regular reports thereafter highlighting the actions taken to deliver service improvements and performance targets, including budget updates and a detailed Annual Report at the year-end.

2. RECOMMENDATION

That the Joint Committee notes the contents of the report and the changes made since it was last reported.

3. CORPORATE PRIORITIES

The Shared Services Partnership is a high corporate priority for both Councils.

4. BACKGROUND TO THE REPORT

The Committee has previously received and approved the formal Partnership Agreement incorporating a Service Level Agreement which sets out the key outputs required of the Partnership and the individual performance measures against which it will be judged.

The main aim of the attached BIP is to translate these outputs and measures into specific projects and targets which need to be achieved during 2017/18, the current agreed set of development work streams and Key Performance Indicators are shown in the tables at **Appendices Two and Three** of the BIP.

As well as underpinning performance management the BIP fulfils the following purposes:-

- A **Risk Register** for identifying and acting upon the key risks and opportunities facing the Partnership in 2017/18;
- A **Financial Plan (Budget)** to facilitate the effective financial management of the Partnership;
- A **Contracts Register** to acknowledge that many of the Partnership's main services are delivered through or in association with other organisations;
- An outline of the main areas of **proposed procurement activity** during 2017/18;
- An outline of the **business opportunities** which it is intended to exploit in 2017/18.

5. WIDER IMPLICATIONS

5.1 Comments of the Statutory Finance Officer

The agreed budget for the Partnership in 2017/18 is set out in this report and has also been included in the budget setting processes at each Council.

5.2 Comments of the Monitoring Officer

The Shared Services Joint Committee, established under Section 101 of the Local Government Act 1972, provides the overall governance for this with its terms being set out in an Administrative Collaborative Agreement which has been signed by both Councils. Sound business planning and performance management arrangements are required to enable the Shared Services Joint Committee to effectively fulfil its obligations.

<p>Other implications:</p> <ul style="list-style-type: none">• Risk	<p>A dedicated Risk Register has been produced in order to identify and mitigate the risks associated with the ongoing development of the Partnership and the latest version is incorporated within the Business Improvement Plan appended to this report.</p>

NEW RISKS & OPPORTUNITIES FOR 2017/18

At the outset of the shared services partnership, the risks associated with its successful implementation were recorded in a risk register together with the proposed actions to mitigate them. Although the majority of the original risk issues have now been mitigated, the updated risk register at **Appendix One** contains a list of the original risks where action is ongoing and progress is now part of the day to day management processes within the services to address them. In addition new and emerging risks and opportunities as the Partnership enters its ninth full year of operation are identified as part of Business Improvement Planning and acted upon. The key risks and opportunities facing the Partnership at this stage of its development are considered to be:

- Continuing to deliver sustainable services in the light of public sector funding cuts and the longer term impact of the Spending review 2015, including seeking out viable opportunities to grow;
- Further developing managers and staff and also planning for succession taking into account that all functions have posts that are restricted to staff who have attained a professional qualification, be that Accountancy, Procurement and also Internal Audit;
- Further developing the management accounting function and other customer contact finance functions within the service at both host authorities to increase added value, including developing the Financial Management Information System (FMIS) in order to maximise the potential benefits.
- Implementation of new statutory requirements with regard to the forthcoming Timetable for Closure of Accounts Process for implementation to close the 2017/18 financial year before 31st May 2018.
- Implementation of new key service improvement plans and strategies e.g. the Corporate Improvement Plan, Budget Setting Strategy and Delivery of the MTFs within SRBC.

Budget Commentary - The budget for the Partnership has been updated to take account of the following:-

- Triennial pension fund re-valuation resulted in the Pension Deficit Contributions proportionately decreasing for the service.
- Corresponding increase in the employer pension rate following triennial review.
- Changes to staff scale points within the posts pay grade.
- Pay-award.
- The budget set out above links directly into the budgets proposals within each Councils' individual draft Medium Term Financial Strategies (MTFSs) for 2017/18 onwards.

Employee Budget Variations	£000
Changes to Employer pension contribution	30
Pay-award	13

Various other minor adjustments	1
Pension Deficit Recovery	(17)
Base Budget Review	(10)
Total Budget Movement 2016/17 to 2017/18	46

In support of the following key strategies the Partnership will continue to seek ways of improving productivity and efficiency by making the best use of the technological solutions available and also through income generation:

- the objectives within the MTFSs of each Council, that both forecast budget shortfalls in future years, and
- the Chorley and South Ribble Joint Procurement Strategy (JPS) which contains a target to achieve £100,000 expenditure savings per authority over the 3 year term of the JPS.

KEY SERVICE DEVELOPMENTS & TARGETS 2017/18

Service Level Agreement

The Shared Services Joint Committee has approved a Service Level Agreement (SLA) which sets out the key performance outputs and measures for the Partnership when operating within its approved structure. Structure charts are attached at **Appendix Five** for new members to familiarise themselves with the functions within the service and the structure that is supported by the approved budget contained in this document. These outputs and measures have been translated into specific service developments and targets which need to be achieved during 2017/18.

Service Developments 2017/18

A table showing the annual objectives and key projects for 2017/18 is shown at **Appendix Two**. Several of these are aimed at addressing the strategic risks and opportunities impacting on the Partnership as identified in the revised Risk Register. It is relevant to note that with regard to service developments that budget efficiencies secured to date mean that greater focus is now on the delivery of core functions and activities. This strategy is reflected in the project programme proposed for 2017/18. The shared services arrangements will be reviewed in 2017/18 given the extensive corporate project plans for 2017/18 and also to 2019/20 for both Councils. The critical projects closely related to, and fundamental in achieving the Medium Term Financial Strategies approved for 2017/18. The service also has an age profile that means that succession planning must be a priority and accommodated within the structure and also personal development plans in the coming years. As a result of the temporary staffing arrangements agreed in respect of s151 duties at South Ribble and backfilling, this BIP has been rolled forward from 2016/17 with regard to Service Developments. Once the final position has been agreed in respect of reviewing capacity, an updated 2017/18 BIP will be brought back to the Joint Committee for approval.

Performance Information

In order to secure continuous improvement in the way that the Partnership delivers its core services it is essential that appropriate performance measures are identified against which challenging targets can be set and regularly monitored. The table at **Appendix Three** includes a performance indicator set that is based on the work of the National Audit Office (Value for Money in Public Sector Corporate Services – A Joint Project by the UK Public Sector Audit Agencies (2007)). The indicator set was also put together following service user and staff consultation and draws upon previous measures used at South Ribble and Chorley.

Performance Reporting

Using standard templates, regular reports on progress against the required outputs, service developments and performance targets will be presented to the Chief Executives, Joint Committee and other relevant committees at each council at the appropriate intervals.

Data Quality

It is also important to stress that the data quality and collection standards appertaining to each Council will be rigorously applied.

CONTRACTS & PARTNERSHIPS

A list of the contractual and partnering arrangements involving Shared Financial and Assurance Services as at June 2017 is contained in the table at **Appendix Four**.

BUSINESS OPPORTUNITIES

It has been the intension of the service to seek to expand the new and innovative way of delivering financial management systems within our one Financial Management Information System (FMIS) to a third, external organisation. It is important, however, that expansion is planned for only when a fully appropriate delivery platform can be offered. The service is involved in investigating new FMIS feeder systems such as payroll and is constantly monitoring developments within other FMIS delivery modules in order to maximise budgetary efficiencies. The aim in 2017/18 is to consolidate the management of various feeder systems, such as cash receipting, to enable the Councils to continue to benefit from the shared services approach e.g. Subscription based regime for the collection of Garden Waste. This involves a feasibility studies into returning outsourced services in house or finding other more efficient options including partnership arrangements for single financial functions. Should the outcome of these reviews result in new internally managed systems then once they have been fully embedded this may be the point where opportunities for business expansion should it be viable and beneficial to do so.

It should be noted that both Councils contain efficiency targets within each 2017/18 MTFS to 2019/20 to reflect an intension to share more services. For clarity, as new services are identified for potential sharing, the best delivery model will be determined according to the service requirements which may be the same as the operating model for Finance and Assurance Services or other arrangements could be applied should this be necessary to maintain particular service legal frameworks, statutory duties, needs and demands where applicable.

DELIVERING EFFICIENCIES

Within their approved 2017/18 MTFS both Councils have set significant savings targets from the expansion of shared services as a result of the success of the current arrangements in securing robust, deliverable and recurring budgetary efficiencies.

Budget Efficiencies 2017/18

The partnership is continuing to work towards assisting both Councils make significant cashable savings in order to close budgetary funding gaps resulting from the current reduction, and heightened uncertainty in core funding. No specified budget efficiency target is included in the 2017/18 BIP, however, the service is continuing to seek out new ways of working, including maximising the benefits of new developments within the Financial Management Information System (FMIS) that will improve the efficiency of the service and contribute to both Councils' Medium Term Financial Strategies.

The Joint Procurement Strategy (JPS) 2015 to 2018 contains targets with regard to assisting Budget Holders achieve budget efficiencies through the procurement of goods and services. The target being £100,000 cumulative per Council over the three year JPS period.

Cashable Savings 2008/09 – 2017/18

Since the partnership was launched at the beginning of January 2009 significant budget efficiencies have been secured by working in partnership, making the best of new technology and proactively reviewing the ways in which we work. To date, over **£0.611m** worth of budget efficiencies have been achieved on a recurring basis from the original budget position which was less than £2.0m. This Business Improvement Plan also sets out projects that aim to ensure that the partnership continues to be effective and also achieves efficiencies whenever appropriate to do so. The table below shows the budget savings achieved to date.

APPENDIX THREE - PERFORMANCE INFORMATION 2017/18

The table below includes a performance indicator set that has been put together:

- following service user and staff consultation;
- drawing upon existing measures at South Ribble and Chorley; and,
- based on the work of the National Audit Office (Value For Money in Public Sector Corporate Services – A Joint Project by the UK Public Sector Audit Agencies (2007)).

The NAO model develops an amended scorecard approach that, in addition to an efficiency dimension, defines three separate facets of effectiveness that can be measured:

- **Impact**, in terms of how the output from each of the services contributes to or influences corporate performance as a whole;
- **Satisfaction** of users and senior managers;
- **Modernisation**, in terms of the extent to which management practices have been adopted that are innovative and forward thinking.

The following table identifies each type of measure being used by the following references:

- E = Efficiency
- EI = Effectiveness Impact
- ES = Effectiveness Satisfaction
- EM = Effectiveness Modernisation

Note also that the data quality and collection standards appertaining to each Council will be rigorously applied.
