Portfolio Holder/Chairman:	Councillor Susan Jones
Portfolio/Committee:	Environment

Subject: Installation of CCTV Camera in Conjunction With Chorley Borough Council on Moss Lane, Leyland.

Decision: To fund the joint installation of CCTV Cameras on Moss Lane Leyland to allow the area to be monitored in an effort to combat anti-social behaviour in the area.

Details and Reasoning:

Background
Over the last five years the area around the underpass on Moss Lane Leyland has been identified as a major hotspot for crime and anti-social behaviour, this has intensified over the last year culminating in a serious assault in January 2019 as a result of which a man was hospitalised.

Following this a multi-agency group was formed involving both South Ribble Borough Council and Chorley Borough Council and representative from the Police, Lancashire County Council and Highways England to identify a possible solution to the issue.

Details & Proposals
Both South Ribble Borough Council and Chorley Council have carried out vegetation clearance works at their respective ends of the underpass to reduce the number of areas to hide and increase visibility.

It is now proposed to install two CCTV cameras one at each end of the underpass this would enable a clear view of the majority of the underpass and the adjoining area, enabling the Police to respond to events as they occur.

Chorley Borough Council would lead on the installation of this system would in turn monitor the cameras at their monitoring station within Chorley Police Station.

Wider Implications (including Financial, Legal, Equality and Risk):

Financial – The implementation of the scheme will require a contribution of £25,000 from South Ribble Borough Council which can be met from "The Existing Built Assets" Capital fund, Chorley Borough Council would contribute a similar amount.

The ongoing revenue costs to operate the system will be approximately £300 per year for South Ribble Borough Council.

The system is expected to last for a minimum of 10 years before requiring any replacement of equipment through wear and tear.
 Legal – The Council will be bound by the terms and conditions of any contractual documentation entered into with the suppliers.
 Equality – None
 Risk -.Should the scheme not be undertaken it is likely that the levels of anti-social and crime are likely to continue unabated.
